Learning Objectives

L6: Construct triangles using ruler and compasses or protractor

L6: Construct the perpendicular bisector of a line

L6: Construct the perpendicular from a point on a line

L6: Construct the bisector of an angle

L7: Find loci to produce shapes and paths

L7: Construct Loci using compasses and/or ruler

L6: Draw plans and elevations given 3-D shapes

L6: Draw a sketch of the 3-D shape given plans and elevations

Why not visit the library to help with the more challenging problems?

Constructions & 3D shapes

Due in:

Rules

You must spend a

minimum of £12.

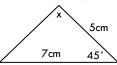

Starter

Accurate use of equipment is required.

1. SAS triangle

£2.00

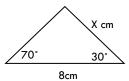

Construct this triangle accurately and measure the marked angle

2. ASA triangle

£2.00

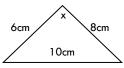

Construct this triangle accurately and measure the marked angle

3. SSS triangle

£2.00

Construct this triangle accurately and measure the marked angle

4. Basic Loci

£2.20

Accurately the draw the loci of a point moving exactly 2cm from a 6cm line.

5. Plan

£2.50

Draw an accurate plan of your bedroom, including any large items of furniture.

Main Course

Accuracy is crucial in being successful with these problems. Substandard work will be returned

6. Perpendicular bisector

£3.50

Draw a line which is bigger than 6cm, but smaller than

Construct the perpendicular bisector

7. Angle bisector

£3.75

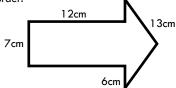

Draw an angle between 90° and 180°

Construct the angle bisector

8. Loci problem

£3.50

This symmetrical arrow needs a border which is exactly 5cm wide all around it. Copy the diagram and complete the border.

9. Elevation

£3.75

Draw the elevation of this 6 cube solid from the front, back, left and right.

10. Revision poster

£3.99

Create a revision poster for the types of triangles in 1-3, with your own examples

Dessert

You can pig out on dessert if you wish!

However, you cannot repeat items you had earlier in the meal.

11. Perpendicular bisector

£4.50

Write step by step instructions for constructing a perpendicular bisector. Give an example.

12. Angle bisector

£4.50

Write step by step instructions for constructing an angle bisector. Give an example.

13. Loci treasure hunt

£5.00

Design your own loci treasure hunt, with solution sheet. You must have at least 3 clues and use scale drawing.

14. Elevation challenge

£5.00

Draw an accurate elevation of a famous building, the school or your house. It would be helpful to include a photograph.

15. Construction revision

£5.00

Create a revision resource or poster that covers all the L6 perpendicular lines and bisectors skills (see objectives)
